

FUN THINGS TO DO AT HOME

ANATOMY

Objective: Build and label a model of a human skeleton

Materials: Whatever you can get your hands on! Think outside the box!

Some suggestions are:

- Candy
- Clay
- Paper
- Play-Doh

Directions:

Use the supplies you have gathered to build a model of a human skeleton, then label the pieces.

Bonus Challenge:

For an extra challenge create and label a model that is in a football position like throwing the ball or running!
